Maintenance Solutions

Ladmus Platinum offers complete and practical solutions for the maintenance, supply, and installation of mechanical and electrical services for organizations in diverse sectors. We have the expertise and experience to meet all the requirements of your mechanical and electrical maintenance as well as installations at the right cost. In Mechanical, we offer the entire array of supply/Installation/Maintenances Solutions & Products incorporating the latest technologies from global pioneers.

We offer a comprehensive solution on consultancy service to our clients. We have considerable in-house experience and have highly trained engineers and consultants who specialize in the planning, designing and implementation of installation to ensure reliability and appropriateness for your specific requirements. We have given quality professional advice to many businesses and have fulfilled their specific requirements.

Today, in this complex and competitive engineering environment, our services have become an integral part of everyday business computing solutions. More and more businesses are finding that operating on engineering is more effective and cost efficient.

Ladmus Platinum design service in such a way that it increases productivity, reduces cost, and simplifies installation using Man-Machine Language (MML), Network Maintenance system (NMS) software. You will be able to logon to our advanced equipment for the quality service delivery and see more information to securely expand your Business Potential.

OUR LOGISTICS AND TRANSPORTATION SERVICES

Ladmus Platinum logistics covers a range of functions each with its own challenges and skills, which are interdependent and function like clockwork through the whole supply chain to deliver results.

The logistics infrastructure embraces purchasing, supplier management, materials management, manufacturing, inventory management, warehousing, distribution, transport and customer service.

Transportation services

Transportation was established in 2009 and with a strong background in transportation business and quality of services, along with a clean safety record, we became one of the leading transport companies in Nigeria.

Our services are diverse in the transportation, logistics industry and trucking maintenance. Our fleet consists of Flat beds, Low Bed, Refrigerated Trailers, in addition to Water and state of the art fuel Tankers. This entire fleet is completely owned and operated by **Ladmus Platinum**

Maintenance

In addition to our fleet, **Ladmus Platinum** manages its own maintenance services.

At **Ladmus Platinum**, our engineers are tasked to attend to customers' technical needs on a 24-hour, 6-days a week on call basis. A service and maintenance arrangement is available upon request on the above products to ensure equipment reliability and to facilitate prompt response for its repair.

Ladmus Platinum has been maintaining an adequate inventory of sold products in support to existing installations requiring temporary replacements of faulty units while the customer units undergo foreign or local repair services.

FINANCIAL ABILITY

Business strives and flourishes when all the necessary tools are in place. It is very clear that, finance is the life wire of every organization. Capability and competence of an entity is in doubt when finance is not well organized. Therefore, it is imperative that finance is sorted out before any project is embarked on. **Ladmus Platinum** had distinguished herself in this aspect by getting our finances in order. We had built good relationship with our bankers and finance houses. We also, leverage on the experience of our core assets.

We can successfully carry out project from acquisition to FAC depending on the agreement with the clients. More so, financial credibility of the client is key to our judgment. We also take into consideration the integrity and the viability of the company.

For any organization to be successful, such organization must take risk. Taken risk without critical analysis is a suicide mission. At **Ladmus Platinum**, here is what we call calculated risk. We take risk but, reasonable and calculated risk.

We are glad to tell you that financing your project is settled.

LADMUS Environmental Policy

The management of Ladmus platinum undertakes to carry out and demonstrate its total commitment to the implementation of an environmental programme, which will identify significant environment aspects and ensure low environmental impact.

The programme will include waste minimization, prevention of pollution, management of land, forests, water and wildlife, ensuring a clean and healthy environment for all employees, shareholders, customers, contractors, suppliers, the community and other interested parties, herewith referred to as stakeholder

Ladmus Platinum also undertake to use efficiently, re-use and recycle whenever possible, use environmentally preferred materials and work cooperatively with others, including our clients, contractors and suppliers, to enhance common environmental objectives.

The management of Ladmus Platinum shall implement procedures to assure compliance with all applicable environmental legislation. In case where existing environmental legislation is not adequate to assure protection of the environment, including human health and safety, the appointment functions within the organization will establish standards to manage human health and safety effectively ensuring that the organization meets these standards

The management of Ladmus Platinum will seek continual improvement of all necessary actions through this programme, thereby ensuring that the Environmental Policy and other requirements can be achieved and exceeded and, as a direct result, meet the organization goals and satisfy the expectations and needs of all stakeholders.

The management of Ladmus Platinum shall ensure that the Environmental Policy is fully communicated, understood, implemented and maintained at all levels throughout the organization, fostering increased awareness of its employees and ensuring compliance with environmental management standards.

Furthermore, Ladmus Platinum shall embrace the sustainable development principle and good environmental management and practice in the company.

LADMUS PLATINUM Emergency Response Policy

Ladmus Platinum will respond immediately to any emergency, either within our own, supplier or clients facilities, and ensuring that:

- ✓ Lives are saved.
- ✓ Injured personnel are taken care off.
- ✓ Environment is protected.
- ✓ Damage to assets/properties is minimized

The emergency response plan shall be detained enough to include all types of emergencies that occur in our various operations, with efficient contingency⁷⁷ plans of action that will quick recovery. All the inherent security risks, safety, health and environmental issues associated with specific emergency types, will be considered.

There shall be a close liaison with our clients
